

## SHOOTING STAR:

Please review hair/make-up and accessory specifics for each individual dance below - these will be reviewed in more detail during your stage make-up and hair class on Friday, January 10th. We have also included a list of items that Miss Leila will be referencing in class so that you can prepare ahead of time. All Shooting Star dances will follow the standard company make-up look that will be reviewed in class and all are required to wear false eyelashes.

For hair this year, Shooting Stars only will have a side part on the left instead of the front bump for all dances. The side part should be on the dancer's left side and in line with the center of their eye (picture below). In all hair styles, please make sure all hair is securely pinned and sprayed, with no "whispies" or small hairs sticking out. Your dancer must have the correct tights, shoes, accessories, and under garments for dress rehearsal!
